WEEK ENDING OCTOBER 28, 1899.

Canada's definite proposals for a perma-nent settlement of the Alaskan boundary

disputet the dominion claimed the cession

of Pyramid harbor in exchange for Skaguay

and Dyea as a condition precedent to arbi-

tration; the proposals were not favorably

regarded by the administration. It was

announced that Russia agreed to arbitrate the Bering sea sealing claims entered in

behalf of United States vessels. Senator

gress did not reverse the policy of expan-

sion he should resign as a protest against that course. In his annual report Secretary Root recommended an increase in the regu-lar standing army to 100,000 men and a re-

Information was received of the nature of

W. W. Marsters & Co., 1t 169-171 BROADWAY, NEW YORK, N. Y.

IF YOU ARE BUYING MINING STOCKS You Cannot Afford to Overlook the

PARADOX COPPER-GOLD Mining Company of Colorado.

This company has immense properties, containing some of the richest and largest copper ore bodies ever seen. Large shipments have been made, proving the value of them, and the company can say now that in a short time they will have their property in a position to pay big dividends and make one of the greatest copper properties of the country. The stock is non-assessable and carries no liabilities. It has advanced from 5 cents to 20 cents per share on improved conditions of the property, and will advance much more rapidly from now on until it passes the dollar mark. Development is being pushed night and day, with a large force of men, pilling up quantities of high-grade ore.

We are offering 50,000 shares of stock for sale at 20 cents per share. This is an exceptional offer, and will be good only a few days. 20 cents per share. This is an exceptional and will be good only a few days.

Write at once for particulars.

C. B. Lowther, Sec'y, 1t. MINING EXCHANGE, DENVER, COLO.

STOP A MOMENT AND SEE WHAT THE

HAS TO SAY!

As we have already told you in former advertise ments, the company owns one of the oldest bonanza mining properties in Colorado, which they are re-opening, and which they already have in first-class opening, and which they already have in insecessic condition again. Within the past few days the company has bought some additional properties, three of which have been great shippers in the past. They are now equipping the properties with a steam plant, and will soon have those properties opened up into ship-ning mines exain. equipping the properties with a steam plant, and will soon have those properties opened up into shipping mires again.

We are making the Notaway Company one of the great companies of Colorado. On account of the purchase of these additional properties, we shall have to advance the price of our Treasury Stock considerably. For a few days we are offering a little of it at 25 cents per share. As we have already told you, our company is capitalized at only one-quarter the number of shares of most mining companies, which makes our stock worth four times as much as theirs, providing they have as good a property as ours. We are now commencing to ship mineral, and will soon have one of the properties earning dividends, and within ninety days will have one of the properties which we have just purchased also earning dividends.

Our company has the highest indorsements of any mining company in Colorado. Remember, we are going to sell only a few thousand shares at the 25-cent rate, and those who want to take advantage of it must act quickly. Our stock is non-assessable and carries no personal liability.

Address all communications to

A. J. VIVIAN, MINING EXCHANGE BLDG., DENVER, COLO.

DO NOT INVEST in mining stocks UNTIL you have sent for our Official Mining Directory. Sent free to those who send ten cents in stamps for one month's subscription for the leading western mining paper. We have SAVED our readers THOUSANDS OF DOLLARS by preventing them from investing in fake companies. Address WESTERN MINER AND FINANCIER, Denver, Colorado.

ment Company 1t* (Incorporated), Rialto bldg., Chicago WASHINGTON

SANITARY IMPROVEMENT

"The objects of the company are to offer to capital what the directors believe to be a safe five per cent investment, and at the same time supply to wage-carners sanitary homes in the city of Washington at reasonable rentals."

The company has erected twenty-eight houses, each containing two flats, all of which are rented. Semi-annual dividends, in April and October, at the rate of five per cent per annum, have been paid regularly since its organization in 1897. The company requires additional capital for the extension of its work, and therefore the books are open for subscription for stock at \$10.00 per share each.

Subscriptions will be received by any of the directors and by the treasurer,

Secretary Mo.-Kans, Zinc Miners' Ass'n.

This Company's properties are as follows: Commonwealth Mines Nos. 1 and 2 are located on 12 acres, half a mile from Galena, equipped with the most complete modern plant in the district, comprising a new 160-ton mill, Atlas engine, two boilers, two steam holsts, connected by aerial tramway, cars and pumps.

Mine No. 1 is opened by a shaft 145 feet deep, and at the 95-foot level there is a very large body of high-grade ore worked through 280 feet of drifts, the output of which for the past twelve months has BROUGHT THE TOP PRICES OF THE EN-TIRE DISTRICT. Since the completion of the new mill the net earnings HAVE BEEN TREBLED.

Mine No. 2 is developed by a shaft 140 feet deep,
and at the 120-foot level, 25 feet below the No. 1 working level, the drift is in very rich ore, known to extend over 200 feet, between the two shafts, showing a very large body of this high-grade ore between the ore levels. The trend of these bodies is toward the eight acres of this property yet undeveloped, and INDICATES GREAT RICHNESS IN THIS REMAINING AREA.

Commonwealth Mines Nos. 3 and 4, located on 44 acres, three miles northeast of Joplin, are provided with a 100-ton mill and full equipment. These mines are developed by a shaft on No. 3 150 feet deep, and by a shaft on No. 4 130 feet deep, with a connecting drift on the 100-foot level. Mine No. 5, located a quarter of a mile north of Joplin, is now in a 65-foot face of very high-grade zine ore. A 100-top milling plant will shortly be in operation upon this property, which has a 75foot shaft upon it. There is in all about eight acres of undeveloped mineral surrounding this It is a fact well established by numerous drill tests made contiguous to this company's properties

run of ore is encountered in still larger bosics, thereby justifying this company's belief that it is as yet merely on the surface of vast in wealth.

FINANCIAL.

The company owns, in addition to these five mines, 124 acres near the Granby Co. mines of Newton county, Missouri, and in the same district as the famous "Mascot" mine, which is new producing \$100,000 yearly. From drilling tests on the lands surrounding these 124 acres the Indications are that MANY LARGE PRODUCING MINES WILL BE DEVELOPED by the Company in future this property.

It is now an accepted fact, proven by the Crossman drill tests and chart as recently published by this company, that zinc ore exists in greater and richer bodies far below the present workings. It was this chart that caused Prof. W. P. Jeaney, in charge of the work of the U. S. Geological Surrey in the Misseuri-Kansas Zinc and Lead Fields, to revisit these fields and alter his optnion upon the depth of these deposits. The idea that the ore was only on the surface, practically, being thrown up from volcanic emptions and earthquake disturbances, has been completely subverted, and it is now well established that the main deposits are undoubtedly deep down in the earth, below the present workings, and at intervals of about 200 feet.

The Commonwealth Zine Co., with its low capitalization of \$500,000, is BY FAR THE BEST OP-PORTUNITY YET OFFERED TO INVESTORS IT the zinc fields, especially while its stock can be

higher-priced shares, yield EQUAL RETURNS, and offer VASTLY GREATER OPPORTUNITIES for gain through enhancement in value. As this company is now paying
